AcqDemo is experiencing unprecedented growth and modification

- Approximately 4,000 (25%) added thus far in FY16
  - Expanding population better balances participation across DoD
  
- Federal Register Notice (FRN) Implementing Plan receiving its first update since AcqDemo's 1999 inception
  - Incorporates six amendments, and many “best practice” personnel features
  - Components'/Agencies' Executive Council members provided input to help craft the features
